
(a) Two explanations for the same candidate
(b) Our test: same crop, network and training; change only the visible native CT
Vessel branching
Off-centre nodule
Ball (10 mm)
Ball + band
Full field
5 mm
beyond the ball: the vessel continues
beyond the ball: the rest of the nodule
CPM 83.6%
CPM 87.6%
CPM 89.4%
band: +4.0 CPM points, 70% of the ball-to-full gap
